Spanish (Native) English (Fluent)

CITIZENSHIP

US & Mexican citizen. No sponsorship required for any North American role.

AVAILABILITY

July 2026 or sooner. Fully remote preferred. Relocating back to US July 2026.

EARLIER EXPERIENCE

Pool Technician, Prism Pool Pros (2020–21) · Field & Warehouse Temp, Corteva Agriscience (2020)

PROFILE

I'm a developer who builds and ships end-to-end. Built two production platforms solo at Driscoll's, owning design, architecture, and deployment for a globally distributed R&D team. I move from architecture, data, and design to production code without handoffs. Outside of work, I continuously build and ship side projects, using them as a way to stay sharp, explore new tools, and push into areas I haven't worked in before. Stack: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, Supabase, Vercel. Active daily user of Claude, Codex, Cursor, and Windsurf. Bilingual (English/Spanish), US and Mexican citizen, no sponsorship required, available July 2026 or sooner.

EXPERIENCE

R&D Sustainability and Business Intern

Jul 2025 – Present

Driscoll's · Maidstone, United Kingdom

- Designed and built a production inventory and operations platform from scratch, including UI architecture, reusable component system, and Supabase data layer, now live across 10 R&D sites in 2 countries.
- Built and maintained an internal component library with consistent typography, spacing, and color tokens across both platforms, ensuring visual and interaction consistency.
- Designed and shipped a second production application replacing fragmented Excel workflows, with KPI dashboards and Tableau export pipelines, built for global R&D rollout.
- Owned the full product lifecycle as a solo builder: system design to component development, stakeholder review, and Vercel deployment for staging before internal migration.
- Operated in-person and async in a globally distributed environment, collaborating with R&D, finance, and IS teams across time zones.
- Used Claude, Codex, Copilot, Cursor, and Windsurf as core workflow tools to deliver two production platforms while retaining full ownership of product and design decisions.

Host / Server Assistant

Aug 2023 – Jul 2025

Kru Contemporary Japanese Cuisine · Sacramento, California, USA

- Managed floor operations and reservations at a high-volume premium restaurant, coordinating front-of-house staff during peak service.

Team Lead

Dec 2021 – Mar 2023

Burger Patch LLC · Davis, California, USA

- Led kitchen and front-of-house operations, trained new hires, and managed team coordination during high-volume service.

EDUCATION

B.S. Business Administration

2023 – 2025

California State University, Sacramento

Entrepreneurship focus. Business strategy, operations, finance, and organizational leadership.

A.A. Political Science

2020 – 2023

Sacramento City College
